### Professional Summary

Senior Software Engineer with ~4 years of experience in architecting and delivering enterprise-scale travel commerce, loyalty, AI, and identity verification platforms. Expert in building scalable backend services and distributed architectures using Node.js, TypeScript, React, Next.js, and AWS.

### Technical Skills

**Languages:** JavaScript, TypeScript, SQL  
**Frontend:** React.js, Next.js, Redux Toolkit, TanStack Query, Tailwind CSS, Shadcn UI  
**Backend:** Node.js, Express.js, NestJS, Strapi CMS, REST APIs, Microservices, Socket.IO, tRPC  
**Cloud/DevOps:** AWS Lambda, AWS SQS, Knative, Docker  
**Databases:** MongoDB, MySQL, PostgreSQL  
**AI/Tools:** OpenAI API, LangChain, GitHub Copilot, Claude Code, Ollama, Git

### Professional Experience

#### Reward360 Global Services

Jan 2025 – Present

Senior Software Engineer

Bengaluru, India

- Architected **Loyalty OS**, a configuration-driven travel integration platform that standardized **OTA contracts/APIs**, reducing new provider onboarding time by **80%**.
- Designed and developed high-performance **Flights, Hotels, and Bus** booking modules, including hotel listings, checkout flows, fare comparison, and multi-date pricing.
- Integrated multiple **OTA providers** (Yatra, MMT, Cleartrip, etc.) using concurrent API orchestration, significantly improving hotel search and detail page response times.
- Built an **Internal Developer Platform (IDP)** using **Next.js**, **Monaco Editor**, and **Knative FaaS**, enabling developers to create, test, and deploy serverless handlers through a unified interface.
- Developed a real-time **Agent Concierge Platform** using **React**, **Tailwind CSS**, and **Socket.IO**, featuring live agent monitoring and booking management that reduced call handling latency by **20%**.
- Implemented geospatial hotel discovery using **React-Leaflet** with a fully responsive UI, improving travel search usability across desktop and mobile devices.

#### Omind Technologies

Oct 2023 – Jan 2025

Software Development Engineer

Kolkata, India

- Built an **AI-powered Call Audit Co-pilot** using **Deepgram**, **OpenAI**, and **LangChain**, reducing manual quality audit effort by **90%**.
- Engineered a high-performance **Filtering Engine** featuring advanced search, saved filters, and random sampling for **QA teams**.

#### Actyv.ai

Nov 2022 – Aug 2023

Software Development Engineer

Bengaluru, India

- Built a **Microservice-based e-KYC Platform**, reducing distributor onboarding time from **1 week to 2 hours**.
- Automated **12,000+ customer verifications** using scalable distributed workflows with **AWS Lambda** and **SQS**.

### Education

#### Full Stack Web Development Bootcamp

Jan 2022 – Nov 2022

Masai School

Remote

#### Bachelor of Technology (B.Tech)

Aug 2014 – Jun 2018

Dr. B.C. Roy Engineering College

Durgapur, India
